What benefits one can get from ICT in education?

Using 60% less water in paper production. Published: 26.04.19 — An EPFL researcher has developed a mathematical model for optimizing heat transfer in factories and dramatically reducing water and energy consumption. The model could, in theory, cut water use by 60% at a Canadian paper mill and allow the facility to produce as much as six times more power.

CALL resources. The main aim of the ICT4LT website is to provide a collection of ICT training materials for teachers of foreign languages (see below). It is not intended to be a collection of CALL resources for use by language teachers in the classroom for teaching a specific language or by individual learners studying a language independently.
