The nature of science (also explored in the IB Theory of Knowledge course) is an essential facet in the teaching of chemistry. When shared as an integral part of the syllabus it can improve student engagement and understanding by providing a context for its place and role in modern-day society as well as the fundamental concepts of chemistry as an area of knowledge.

### **the Nature of chemistry - Home**

Nature, founded in 1869, is the leading weekly, international scientific journal and sits at the heart of the Nature Research brand. Nature Research also publishes a range of Nature-branded research and reviews subscription journals across the life, clinical, physical and social sciences.
