ISO 690 is an ISO standard for bibliographic referencing in different kind of documents. It includes electronic documents, and specifies the elements to be included in references to published documents, and the order in which the elements of the reference should be stated.Punctuation and style (output mask) are not part of the standard; it is a standard for content more than for presentation.

Cuttlefish, like other cephalopods, have sophisticated eyes. The organogenesis and the final structure of the cephalopod eye fundamentally differ from those of vertebrates such as humans. Superficial similarities between cephalopod and vertebrate eyes are thought to be examples of convergent evolution.The cuttlefish pupil is a smoothly curving W-shape.
