DBQ- Neolithic Revolution

The Neolithic Agricultural Revolution Between 10,000 and 3000 B.C.E., people in several areas around the earth developed new agricultural methods and machines, such as the plow pulled by horses or oxen. During this time, people also began the slow domestication and development of both crops and animals. The results of these changes made

ACTIVITY 3.1 The Neolithic Agricultural Revolution

This unit presents lessons on the New Stone Age or Neolithic period from 8,000 to 3,500 B.C. The unit attempts to develop the profound changes in human society brought about by the domestication of plants and animals. The development of agriculture and the resultant move from wandering hunter gatherers to settled villages has been called the great leap forward in the history of humankind.
