Medical classification, or medical coding, is the process of transforming descriptions of medical diagnoses and procedures into universal medical code numbers. The diagnoses and procedures are usually taken from a variety of sources within the health care record, such as the transcription of the physician's notes, laboratory results, radiologic results, and other sources.

NAC: CHAPTER 632 - NURSING - Nevada Legislature

Preamble: Paper-based records have been in existence for centuries* and their gradual replacement by computer-based records has been slowly underway for over twenty years in western healthcare systems. Computerised information systems have not achieved the same degree of penetration in healthcare as that seen in other sectors such as finance, transport and the manufacturing and retail industries.
