Moving patients toward health proactively and efficiently. MCG helps healthcare companies implement informed care strategies that proactively and efficiently move patients toward health by ensuring that patients get the right level of care and the right care activities for the right amount of time.

Informed Healthcare Strategies and Solutions | MCG Health

I received a heads up a little over a month ago that Milliman Care Guidelines had been adopted by CMS to determine appropriate level of care. I scoffed at the concept because federal guidelines that you and I get to review as proposed rule before they become final would certainly not be overridden with private company standards without little or no warning.

Federal Guidelines or Milliman Care Guidelines Time for ...

The Magellan Care Guidelines direct both providers and reviewers to the most appropriate level of care for a patient. While these criteria will assign the safest, most effective and least restrictive level of care in nearly all instances, an infrequent number of cases may fall .
