English grammar is the way in which meanings are encoded into wordings in the English language. This includes the structure of words, phrases, clauses, and sentences, right up to the structure of whole texts.. There are historical, social, cultural and regional variations of English. Divergences from the grammar described here occur in some dialects. ...

Japanese is a synthetic language with a regular agglutinative subject-object-verb morphology, with both productive and fixed elements. In language typology, it has many features divergent from most European languages. Its phrases are exclusively head-final and compound sentences are exclusively left-branching. There are many such languages, but few among European languages.

Humanism - Later Italian humanism: The achievements of Alberti, Federico, and the Medici up to Lorenzo may be seen as the effective culmination of Italian humanism—the ultimate realization of its motives and principles. At the same time that these goals were being achieved, however, the movement was beginning to suffer bifurcation and dilution.
