The neurobiology of decision-making and responsibility: Reconciling mechanism and mindedness. 1 Department of Physiology and Biophysics, Howard Hughes Medical Institute, University of Washington, Seattle, WA, USA. 2 Department of Philosophy, Dartmouth College, Hanover, NH, USA.

Frontiers | The Neurobiology of Decision-Making and ...

Preferences for different combinations of costs and benefits are a key source of variability in economic decision-making. However, the neurochemical basis of individual differences in these preferences is poorly understood. Studies in both animals and humans have demonstrated that direct manipulation of the neurotransmitter dopamine (DA) significantly impacts cost/benefit decision-making, but ...
