People who consume sugary drinks regularly—1 to 2 cans a day or more—have a 26% greater risk of developing type 2 diabetes than people who rarely have such drinks. [14] Risks are even greater in young adults and Asians.. Strong evidence indicates that sugar-sweetened soft drinks contribute to the development of diabetes.

Premenstrual syndrome (PMS) is a combination of symptoms that many women get about a week or two before their period. Most women, over 90%, say they get some premenstrual symptoms, such as bloating, headaches, and moodiness. 3 For some women, these symptoms may be so severe that they miss work or school, but other women are not bothered by milder symptoms.
