I've poked around on-line to try to find a Nufarm-based website where anyone could order a copy, but I was unsuccessful. However, if you Google "Spraywise Broadacre Application Handbook" you will find a number of dealers that will happily sell and mail you a copy. I won't share those links here to avoid a bias, but they're easily found.

Spraywise - Broadacre Application Handbook | Sprayers 101

•Mix Guide: receive a recommended mixing order based on the products selected •Mix Sheets: enter field size, spray volume, tank size and product use rates and receive rate per acre, per tank and per field for accurate documentation and compliance. Easily share to integrate with existing records.

Mix Tank - Tank Mixing Order on the App Store

If this product is to be tank mixed with fertilizers or with other pesticides, compatibility should be tested prior to mixing. To test for compatibility, use a small container and mix a small amount (0.5 to 1 quart) of spray, combining all ingredients in the same ratio as the anticipated use. If any indications of

Chemical injection systems should be rinsed between pesticides. Photo courtesy of Bestway. There was a time when loading up the sprayer tank was as simple as filling the sprayer tank one-half full of water, adding the herbicide with agitation, filling the tank and going spraying. In some cases today, though, you almost have to have a chemical engineering degree to mix up the herbicide cocktail.

Tips for herbicide tank-mixing - Top Crop Manager

applied in the tank mix with this product or prior to application of this product, cultural practices or the manner of use or application, (or a combination of such factors) all of which are factors beyond the control of Nufarm. The Buyer should be aware that these inherent

HERBICIDE - CDMS

Mixing this product with herbicides or other materials not instructed in this label may result in reduced performance. However, unless otherwise prohibited on this label or the label of an intended tank mix product may be applied in combination with any herbicide registered for the same site, timing, and method of application.
