Postmodernism is a broad movement that developed in the mid- to late 20th century across philosophy, the arts, architecture, and criticism and that marked a departure from modernism. The term has also more generally been applied to the historical era following modernity and the tendencies of this era. ( In this context, "modern" is not used in the sense of "contemporary", but merely as a name ...

**INTRODUCTION:** While new studies on the negative effects of pesticides on human health are completed each year by major government and university research centers, the majority of these studies remain "silent" in medical journals and do not reach the public via major news outlets. This reduction in public awareness appears to have worsened over the past several decades.
