The task types indicate the breadth and depth of CCSS mathematical practices assessed by the task. Novice tasks involve only MP2 and MP6 and do so at a low level. Apprentice tasks add MP3 and MP7 but, because of the guidance within the task, do so at a comparatively modest level. Expert tasks aim to cover the full range of practices.. Note: these task types offer a guide as to how tasks relate ...

Summative Assessment Tasks - map.mathshell.org

The Mathematics Assessment Project is part of the Math Design Collaborative initiated by the Bill & Melinda Gates Foundation. The project set out to design and develop well-engineered tools for formative and summative assessment that expose students' mathematical knowledge and reasoning, helping teachers guide them towards improvement and ...

Welcome to the Mathematics Assessment Project

and Summative Assessments) • Some of the questions in the formative assessment tasks are designed to be more 'open' in nature than those in the summative assessment tasks. This helps to encourage teacher - student discussion and provides a way for the teacher to delve more deeply into the extent to which the student understands the material.

CBAL Mathematics: Assessment of, for, and as Learning ...

The main point of an authentic task is to encourage students to find ways of solving rich mathematical tasks themselves. Different ways of solving a task reveal qualitatively different knowledge and skill sets, and these can be evaluated in terms of the Learning and Assessment Framework for Multiplicative Thinking (LAF). To use the authentic tasks with your students:
