The ACT (/ ɛɪ s iː t iː /; originally an abbreviation of American College Testing) is a standardized test used for college admissions in the United States. It was first introduced in November 1959 by University of Iowa professor Everett Franklin Lindquist as a competitor to the Scholastic Aptitude Test (SAT). It is currently administered by ACT, a nonprofit organization of the same name.

The mathematics portion of the SAT is divided into two sections: Math Test – Calculator and Math Test – No Calculator. In total, the SAT math test is 80 minutes long and includes 58 questions: 45 multiple choice questions and 13 grid-in questions. The multiple choice questions have four possible answers; the grid-in questions are free response and require the test taker to provide an answer.

There are a lot of great study books available for the AFOQT and most of them are relatively inexpensive. Many of these books contain multiple practice tests. Timing yourself while taking these practice tests is a great way to prepare for the pressure of taking the real thing. As mentioned before, older study books are still very useful if you make sure not to bother studying
