The C Scow was the first class of scow built by Harry C. Melges, Sr. in 1945; it quickly became an all-time speed favorite. The C Scow has come a long way from the days of wooden materials and cotton sails. It continues to be a very revolutionary sailboat, inspired by more than 100 years of competitive racing.

I just bought a 1988 MC scow today in pretty good shape. I've been searching all over the internet looking for an owners manual to see how to rig the boat. The previous owner hadn't sailed her in quite awhile and couldn't figure out how to attach the vang, cunningham or outhaul where they come out of the deck by the mast.

He found that the boat was a good design but was underpowered and could use some modern rigging. Later on, Melges brought out a version of the J-Scow with a larger mainsail and some new designs. The MC-Scow was born. The MC proved to be faster than the J-Scow and so eventually, Johnson converted its J-Scow production into MC production.
