What lies at the heart of the Nature Aquarium concept, are the little things: the minute details, the microorganisms. The ecosystems of Nature all start from bacteria, and the breathtaking landscapes of Nature, all start from a single stone. In a sense, the Nature Aquarium is a way of thinking about one's aquarium.

The Nature Aquarium Concept is probably the most intriguing and most beautiful type of all fishkeeping approaches. It enables us to bring nature closer to our urban spaces. Most of us live in an industrial world that brings us further and further away from our roots, from the natural environment that surrounded our ancestors for centuries.

There are many copycats trying to replicate the ADA tank appearance. However, their glass joints are not strong enough to hold the pressure of the water inside the tanks, and we have heard many horrific stories of tanks breaking. Open-Top Access. The Nature Aquarium concept works with living plants.
