The course's fun video format and self-assessment quizzes can help students who need to study for upcoming exams, as well as teachers who want to use an engaging supplemental teaching resource.

Nervous System Study Guide Course - Study.com | Take ...

Peripheral Nervous System. Your peripheral nervous system is made up of sensory neurons (which take in information about what you see, hear, taste, touch and smell) and motor neurons (which send information to your muscles and glands so you can react). The sensory neurons are the ones that tell your brain there's a mosquito biting you,...
