**Standard Graphing Paper you may select either 1/10, 1/4, 3 ...**

To correctly graph this on a graph paper, the student would need to properly number both axes so they can match to the corresponding point on the plane. For both the horizontal x-axis and vertical y-axis, the student would label 1 through 5, then draw a diagonal break in the line and continue numbering starting at 35 and working up.

**Coordinate and Graph Paper with Numbers - ThoughtCo**

Depending on the grade your student is in, he or she may require different sized graph papers to plot data points on a graph. 1/2 Inch, 1 CM, and 2 CM graph paper are all staples in math education but are used more frequently in teaching and practicing measurement and geometry concepts.
