About Your Care | Florida Health Care Plans

Health care in the United States is provided by many distinct organizations. Health care facilities are largely owned and operated by private sector businesses. 58% of US community hospitals are non-profit, 21% are government owned, and 21% are for-profit. According to the World Health Organization (WHO), the United States spent \$9,403 on health care per capita, and 17.1% on health care as ...

Health care in the United States - Wikipedia

One study in particular began to catch the attention of leaders. John Kotter and James Heskett (1992) published an 11-year evaluation of company cultures. They found that over an 11-year period, companies with healthy cultures had a 682% average increase in sales versus 166% for comparable companies without such healthy cultures.
