My ONKYO TX-DS575 suddenly has no sound output except for a very low level at full volume on all sources. And I can't seem to anything at all from the optical source which is plugged to my apple tv. Everything was working perfectly until I updated the software on the apple tv. After that it all went haywire.

### **My ONKYO TX-DS575 suddenly has no sound output except for ...**

The onkyo does have a hiss which is audible at low volume levels. I sit about 8 feet away and can here it when nothing is playing. Could not notice it at first, but now that I pay more attention to it it is noticeable. The onkyo is a great receiver for the money. Picked it up for 389 shipped. No 3db bass like other onkyo I had, so bass is weak.
