1. Introduction. Understanding the influence of mechanical stimuli on the structure of bone has long been a topic of scientific interest. To the best of our knowledge, Galilei , noticed a relationship between body weight and bone size and shape. However, mechanical forces were not identified as responsible for shaping the architecture of the skeleton until the 19th century, in studies developed ...

The oldest known sundial is from Egypt; it dates back to around 1500 BC (19th Dynasty), and was discovered in the Valley of the Kings in 2013. Sundials have their origin in shadow clocks, which were the first devices used for measuring the parts of a day. Ancient Egyptian obelisks, constructed about 3500 BC, are also among the earliest shadow clocks.

History of timekeeping devices - Wikipedia

The area of study known as the history of mathematics is primarily an investigation into the origin of discoveries in mathematics and, to a lesser extent, an investigation into the mathematical methods and notation of the past. Before the modern age and the worldwide spread of knowledge, written examples of new mathematical developments have come to light only in a few locales.
