MYOB AccountRight User Guide

Access to your online company file and other AccountRight online services is determined by a person's online access level. Online access is different to company file access which is controlled through your user access settings. Also learn how to manage users to control access to your company file.. The online access levels are:

Set a user's online access level - MYOB AccountRight ...

You'll need to set up user access for anyone you want to work with your data: If your file is online. Create a user account for each person who will access your file. The user will receive an email invitation to access your online file. Once they accept the invitation they can access the file according to the permissions you give them.

Set up user access - MYOB AccountRight - MYOB Help Centre

We need to set up a new user on our account Right Premier v19.13 who can ONLY have access to looking up details on sales - either by using invoice or PO number. We have tried all different kinds of access combinations, however failing to lock it to this extend. The user must not have any other access, ie purchase, accounts, payroll etc.

User Access - MYOB Community

If the user has entered transactions, you'll need to make the user inactive and create a new user. This makes sure AccountRight keeps a history of all users for auditing reports. Sign-on to your company file as an administrator. Go to the Setup menu and choose User Access. The User Access window appears.

Change a user's company file access - MYOB AccountRight ...
