(PDF) Contemporary Motivation Learning Theories: A Review

Self-efficacy theory grows out of Bandura's original social learning theory (Bandura, 1969, 1977) and, hence, has some behavioral and mechanistic aspects in contrast to the more organismic perspective on the individual represented in expectancy-value models and the research on self-perceptions of competence.

The Role of Expectancy and Self-Efficacy Beliefs

Motivation in Adult Education Theory What is Adult Learning? An adult learner is "a self-directed person, 24 years of age and above whose engagement and readiness to learn is based on the immediate applicability to the development tasks of his/her social role incorporating his/her reservoir of experience.

Motivation in Education: Theory, Research, and Applications

The content theory was one of the earliest theories of motivation. Content theories can also be referred to needs theories, because the theory focuses on the importance of what motivates people (needs). In other words, they try to identify what are the "needs" and how they relate to motivation to fulfill those needs.

Motivation - Wikipedia

Learning theory and research have long been the province of education and psychology, but what is now known about how people learn comes from research in many different disciplines. This chapter of the Teaching Guide introduces three central learning theories, as well as relevant research from the fields of neuroscience, anthropology, cognitive ...
