Integrate OnBase with your other applications Get accurate information to make faster decisions in one central location OnBase provides a variety of integration methods to equip users with instant access to all information they need from their preferred application.

Integrate | OnBase Product Deep Dive

OnBase also integrates with Open Document Management API (ODMA)-compliant applications. Deeper and more complex application integration can be accomplished using the OnBase Application Programming Interface (API). With the API, integration is accomplished via Microsoft's Component Object Model (COM) and .NET Interop or Java wrappers.
