How to generate database documentation with Oracle SQL ...
First off, in Oracle you would be considering pure relational versus Object RELATIONAL, not OO. We have object relational extensions to the relational database. We do not have an object oriented database. The answer to this comes down to the data you are working with. Let's say you are building a banking application.

Ask TOM "Relational VS Object Oriented Database Design"
"How fair to use Oracle's Object Relational Model in commercial application development like Production Control System?" What impression I am having regarding Oracle's ORDBMS model is, it is not widely accepted in applications like Production Control System . I haven t seen a single site having implemented ORDBMS approach into
